Why do some people absolutely crush it when it comes to getting targeted and reliable free traffic online? And then others fight tooth and nail to get even 1% of that same traffic?

I'll tell you exactly what the secret is...

A few years back I read the *4-Hour Workweek* and was super-pumped about running my own internet-based business. My vision was to build a business that can bring in cash while I am asleep. Afterall, that is the dream of most people...

And then I did what few people do. I *actually* hit the ground running with my first few money pages and landing pages, social media profiles and web 2.0 accounts.

Only problem was, no one saw them not to talk of opting into my email lists. I lost a reasonable amount of dollars from that ordeal trying to figure out what the issue was.

Contrast that failure with the launch of my various membership sites. All my membership sites have been a massive hit, making me passive income to date with little to no maintenance on some of them.

What was the difference?

Why did my first sites and money pages flop and were never seen by the right audience and my membership sites take off?

Two words...

Free Traffic.

Ad costs are increasing every day, and breaking even is even getting harder for most people these days.

Getting highly targeted, and quality free traffic is one of the most significant and impactful things that you need to grow your business online. You think this is impossible? It is absolutely possible if you are doing it right.

If you are just starting your online business or trying to successfully establish any business, getting quality and reliable free traffic that can be measured is your golden ticket to crushing it online.

But how do you get such quality and reliable free traffic from really interested audience that can be measured without looking like a spammer?

Introducing PinTra Acceleration – a step-by-step guide on how to get highly targeted, and reliable free traffic from Pinterest by using free and official tools to automate the whole process.

My name is Ken.

Over the past 12 months, I've grown my email list from 0 to over 10,000 subscribers all from free traffic.

I've uncovered and reverse-engineered the strategies YOU need to implement to grow your list to over 10,000 subscribers by leveraging free traffic from Pinterest and by spending less time using free and official tools to automate the whole process.

Over the past 12 months I've been working on this strategy to perfect it in a way that even a newbie will be able to implement it.

The crazy part?

This time last year, I was a complete newbie and nobody. I tried everything Tom, Dick and Harry sold on the market without any reasonable result. At most, I was spending all my time on my computer looking like a spammer, and even losing my money.

Now I have one of the fastest-growing blogs online...all because of one thing...

Yup! Targeted and reliable free traffic.

How Getting Targeted and Reliable Free Traffic Works.

I've learned a time-tested and proven formula to rapidly get targeted and reliable free traffic continuously without spending your time in front of a computer and without looking like a spammer. In the process, I have:

- Implemented 10 different free traffic generation strategies and 1 has been tested to produce more than 2 million unique users in 30 days without spending a dime and without wasting time on my computer.
- Identified the best highest-converting strategies. These strategies have accounted for over 80% of my traffic to my website over the past year and for more than 10,000 new email subscribers.
- Used more than 20 different software solutions and found the perfect one (that is free to use) with all the technical configuration to make the entire traffic process

Download now @ <https://www.freetraffic.imgeneral.org>

simple (even for people who are scared of that stuff).

- These strategies have been tested and proven. But not just on my site. I've used in on some clients site in my digital agency business.

Moral of the story: This course is grounded in proven principles and strategies that work. It's broken down into simple, step-by-step sections that allow you to easily walk through each of the phases of generating free traffic on demand on consistent basis to your websites and pages. *The best part is that, you make use of free but official tools that does not even require your credit card details, and saves you a lot of time to spend with your loved ones.*

At the end of course is an easy-to-follow checklist so you can methodically implement what you've learned. No guesswork. Just follow the plan.

What Is Covered In This Course?

This course covers virtually everything you need to know about getting targeted free traffic from one of the largest social media networks with the highest rate of engagement and longevity – Pinterest.

1. Why should I consider using this platform?

There are lots of social media platforms out there. I have tried almost everyone you can think of including English and non-English platforms. While Facebook has the largest share, they are increasingly making it difficult for businesses to reach their followers or new audience without paying for it. From my experience and available statistics, Pinterest is the most business-friendly social media platform that is capable of sending you absolutely targeted free traffic without paying for it.

- We'll start at the beginning of this course by highlighting with valuable and verifiable statistics on why Pinterest should be your go to marketing platform.

Download now @ <https://www.freetraffic.imgeneral.org>

- You'll learn the most important foundation and techniques of succeeding on this platform.
- You'll learn how this platform drives more visitors that converts to sales and longtime customers than all other social media platforms.
- You'll learn the one technique that you can apply to start generating leads and sales for completely free from Pinterest.

In this section of PinTra Acceleration Course I'm going to cover virtually every detail that will make you drool over Pinterest and get the ball rolling within minutes.

2. What technology should I use?

One of the biggest problems I ran into early on was knowing what technology to use to manage my Pinterest accounts.

- What automation software to use?
- What tools to use to find the right content?
- Should I use a combination of different tools?
- What about tools that will not put my account in danger by not going against Pinterest terms of use?

There are so many options on the market. It can be completely overwhelming. I spent nearly 6 months just trying to pick an automation tool that is compliant with Pinterest terms of use and that will not put my accounts and clients' accounts at risk. What a PAIN! You will not have to experience any of that.

I'm going to give you the exact tools that I use that is free (without requiring your credit card details) and also an official tool from Pinterest. I will also give you an easy-to-follow blueprint to set up this tool properly and make use of the best features. No guesswork. No spending months to learn the curves. No spamming! You will see my exact setup and what I suggest you use at each stage of your Pinterest marketing automation.

3. How do I make money from the Free Traffic I make from Pinterest?

This is the \$1,000,000 question...

"How do I make money online?"

This is where it gets really fun.

- I have added my *internet marketers vault* as a special bonus to you. This vault is my special membership platform where you can learn directly from a group of experts in different areas of marketing, such as: email marketing, list building, product launch, affiliate marketing, different methods of paid advertising such as Google AdWords, Facebook, Instagram, YouTube etc etc.
- You will also get access to a software suit and exclusive platform that will save you money from buying different tools that are used online.
- You will learn how to set up and position your account correctly for maximum exposure to your potential audience.
- You'll learn how to become a professional and authority in your niche so that you can offer your services to other businesses.

The strategies you'll learn here have generated over 2 million unique engagement and views within 30 days of setting up a brand-new account online. I will show you exactly how to become an authority in your niche from the moment you get started.

You can't buy this course; it only comes as an added bonus to [PinTra Accelerator](#) customers because I like to over-deliver and give my customers more value. This is one of my core business principles even in my digital agency.

Frequently Asked Questions

Is this actually possible?

Absolutely. I know you have bought a lot of courses and have heard a lot of hype on issues like this that it does not work. Only those who do it wrong say this is impossible or takes a lot of time. You can continue to listen to them, or let someone who has done it and is still doing it to hold you by the hand on every step of the process.

Download now @ <https://www.freetraffic.imgeneral.org>

You'll have a major advantage on me by having someone hold you by the hand and tell you exactly what works and what doesn't. I did it for a whole 12 months through trial and error.

Is there any type of continued support? What does it look like?

Absolutely.

You have access to my support desk anytime. You will also have access to my personal email so that you can email me anytime you want and I will personally respond to you.

Will this course continue to be updated? And will I get free access to future versions?

Yes! This will be the flagship of our free traffic products and it will be updated on a regular basis because I use this system in my other businesses as well. Once you are enrolled, all future versions are free at no cost.

Does this not involve spending too much time on the internet spamming social media?

Absolutely not. I hate wasting one of my most precious gift – time. We use free tools that does not require even your credit card details to start implementing our strategies in full force. Set it up once and for all...

Moreover, the tool that we use is an official tool that keeps your account safe without any form of suspicious activities, unlike most others on the market I have used previously.

Can't I find this information for free online?

Good question, am glad you asked.

Download now @ <https://www.freetraffic.imgeneral.org>

There are a lot of garbage being put out online on daily basis by people who claim to be professionals but never practice what they teach. Consider this course as an encyclopedia on this subject of free traffic generation from an expert who is in the trenches. You are not going to be taking action based on trial and error.

The course goes into MUCH more detail, with use cases, examples and step-by-step instructions on every single strategy.

Will this work for someone who is not in the "online marketing" industry?

Absolutely.

I will be teaching you the strategies that I use in my high-end digital marketing agency with high paying clients who are not in the internet marketing niche. All of the strategies taught are built on universal marketing principles.

What if I'm literally starting from step 0 with no experience whatsoever?

I designed the entire course with beginners and veterans in mind. If you are a veteran, you can decide to skip some parts where I take on baby steps. This means that newbies are not left out and they can follow my step-by-step baby steps to become experts in no distant time

Can I afford this right now?

At the end of the day that's a question you have to answer.

However, I can tell you that the strategies in this course have been applied to high paying clients and have proven to generate tremendous results for them. The pricing model is specifically designed to enable beginners to get started without breaking the bank.

Download now @ <https://www.freetraffic.imgeneral.org>

This makes it more affordable for everyone to get started within moments from now. If you are just starting and you don't want to risk your funds on running ever increasing high cost ads, this is for you. Just \$19 (price may increase).

How much time will this take?

Great question!

The course itself is being designed to save you both time and money. You can go through the entire course as fast as you can, at most in a day.

As far as implementation, that depends on how quick you want to get things started.

How often SHOULD I work on it?

You can also set up everything in one day if you are a fast learner and quick to implement the strategies inside. Once set up is complete, you rarely touch your traffic machine again.
